Experience and knowledge includes: pressman web and offset, bindery operator, bindery manager, production scheduling and production planning.

The **2009-2010 Compensation & Benefits Report is now available**. Our report includes results from the PICA region, South Atlantic and National. Highlights of the Study include:

- Projected salary increases over the next 12 months, so base rates can be updated through 2010.
- Pages organized by certain demographic classifications and fringe benefits, so readers can quickly find the information of greatest importance to them. All results are summarized by location (nationally, regionally, and locally) and company size.
- The Appendix contains a copy of the survey so you can see exactly what was asked.

If your company participated in the survey this past summer, then you should have already received your copy. For those who did not participate in the survey, members in good standing may purchase the printed report for \$250.

New this year is an Excel file where you can input your wages and compare them to the industry average. This add-on is available for \$100. ***The PICA Compensation & Benefits Report is only available to our primary contacts (or their designee) at PICA member companies.***
